Eight Alton and Godfrey area youths were injured when a car driven by John Michael Verbalis, 18, of Alton, failed to make a curve on Old Alton road about a mile north of Interstate 270 at about 11:30 p.m. Sunday and crashed into a tree. He was charged with driving too fast for conditions. Taken to St. Elizabeth Hospital were:

Verbalis who was admitted with a bruised neck and headache; Joseph Loach Jr., 18, of Alton, who suffered cuts to his right ear and abrasions to both knees and left elbow; Robert Schultz Jr., 18, of Alton, who was admitted with a cut to his forehead and abrasions to the right elbow and chest.

William Reilly, 18, of Alton, who was admitted with pains to his chest, head and right knee; John Horsley, 18, of Godfrey, who was admitted with pains to his head and right knee; Richard Flure, 18, of Godfrey, who was admitted with pains to his left knee and right upper leg; and Ronald Tull, 18, of Alton.

Highway Accident
Three persons were injured when an auto driven by James Williams, 17, of East Alton, halted for a stop sign, was struck in the rear by another driven by Thomas Jerome Dailey, 44, of Washington Park, at 7:30 p.m. Thursday at Highways 111 and 182.

They were taken to St. Elizabeth Hospital. Wiseman was admitted with spine injury. A passenger in his car, Alice Norbury, 18, of Collinsville, was admitted with neck injury and a long scratch to her left leg. Dailey was treated for a 2½-inch laceration to his left chest, and was released.

Charles Marcus, 34, of 4106 Searns avenue, was admitted to St. Elizabeth Hospital at 5:15 a.m. Saturday with injuries sustained when his auto collided with one driven by Richard Allen, 17, of Collinsville, at Pontoon road and Highway 111.

Allen had minor injuries but did not require hospitalization. Marcus was turning left off of Highway 111 onto Pontoon road. He was charged with failing to yield the right-of-way. Allen, headed south on the highway, was charged with having improper license plates.

Leaking Gasoline

Blazes; No Damage

Donald Mayes, 1439 Madison avenue, escaped injury about 10:15 a.m. today when gasoline that was leaking from a motorcycle he was cleaning ignited and set fire to a tarpaulin. The fire was in a concrete block garage at the rear of the dwelling. The gasoline was ignited either by a spark or a cigarette. No damage was listed.

Firemen from West Granite ignited the blaze as the main station crew was called at 10:10 a.m. to a weed fire at 25th street and railroad tracks which was threatening rail cars in the yards there.

Early Morning Fire

Firemen were called at 1:25 a.m. Sunday to Grand and Niedringhaus avenues where there was a carburetor fire in the 1965 auto of Mike Laslier, 117 Lenox avenue, Mitchell. Firemen said there was no damage.

Madison School Bonds Ok'd 5-to-1

Vote is 934-to-186
For \$600,000 Program
Of Expansion

Madison school district residents voted 5-to-1 approval Saturday of a \$600,000 bond issue for expansions and improvements projects at the senior high school and Dunbar grade school.

The "yes" vote totaled 934, while the "no" vote was 186, as 1155 voters went to the two polling places. There were 35 spoiled ballots.

School Board President John Belloff said he was "thrilled at the response by the people. They showed us they were overwhelmingly behind the schools and are wanting to provide proper and adequate facilities for the pupils."

Belloff announced a special meeting of the board will be held at 7:30 p.m. tomorrow to canvass the vote and to begin immediate preparations for the sale of the bonds for the start of construction.

Expansion Plans

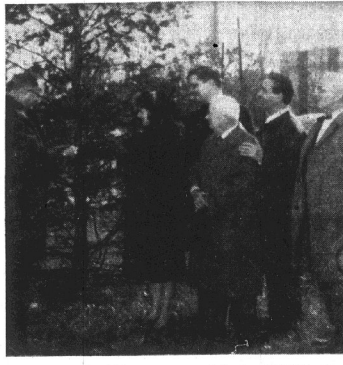

The board plans a \$350,000 addition to the high school and a \$160,000 expansion program for Dunbar school in West Madison. A one-story addition at Dunbar is to include six classrooms, an office, a storage area, restrooms, a teachers' lounge and a playground for the kindergarten room in the new annex.

A breakdown of the Saturday voting shows—Harris school polling place 823 votes with 617 "yes" and 106 "no" and 20 spoils; and at Blair school, 332 votes with 317 "yes" and 9 "no" and 6 spoils.

Night Landing—Out of Gas

Light Plane Lands, Flips In Field off Morrison Road

The pilot, lone occupant of a light plane, was unhurt when the single-engine aircraft flipped over in an emergency landing in a wheat field along Morrison road about 10 p.m. Saturday. The plane had run out of fuel.

State Trooper Leo Sprankle dispatched to the scene Sunday and found the pilot, Ferris Fancher, 58, of Bridgeport, Mo., standing by his damaged plane where he had spent the night. Fancher said he had been on a cross-country flight when he exhausted his fuel supply.

He is making arrangements for removal of the plane today. The wings were badly damaged when on landing the plane rolled into a plowed area of the field and flipped over.

The crash was south of Mitchell and about 3½ miles north of Granite City.

Top Level Talks Being Resumed In Strike Strike

After a 17-day pause, top level negotiations will be resumed at 9 a.m. tomorrow in another effort to settle the five-month-old strike at Union Star & Refining Co., which today entered its 15th day.

The meeting will be held in the St. Louis offices of the U. S. Conciliation Service, with Paul Bowers of the Washington, D. C., office to be present along with H. J. McLean, and international district director for the Oil, Chemical & Atomic Workers, and Ted Reed, president of Union Star. Negotiating committees of the local firm and OCAW Local 7463 also will be present.

The company for the past week has been considering a proposal presented by the union officers.

'Tree of Lights' Needs \$60,000 To Feed Needy

Deer Killed Today By Auto in Venice

A deer was struck and killed by an auto driven by Thomas A. Zelenka, 2678 Iowa street, at 7:15 a.m. today at 200 Broadway, Venice. The left front fender on the car was damaged by the 200-pound animal.

Venue police notified Donald Hastings, Madison conservation officer, who said anyone could have the animal by mailing \$5 to the state department of conservation.

It was taken by Patrolman Charles E. Mize, 209 Grandville street, who butchered the deer at the Horseshoe Lake Rod & Gun club. Police are expecting a venison feed shortly. Police believe it had wandered along the river into Lee Park.

Eviction Suit Filed Against Lakeside Airport

A forcible detainer suit to eject Omar Midgett, veteran operator of Lakeside Airport, from the premises has been filed in the circuit court at Edwardsville.

The complaint was filed for A. Madeline Hickert of Chicago, trustee under the I. J. Harkle testamentary trust, on a charge of breach of contract dealing with payment of real estate taxes.

Midgett told the Press-Record he is in the process of negotiating a new lease for continued operation of the airport, and that he was not in a position at present to discuss the suit. The suit alleges he did not pay taxes last summer in the amount of \$2384 for the 1964 tax year. The plaintiff seeks that amount with 6½ interest, plus control of the property, buildings and equipment.

An immediate hearing is sought. The suit states that Midgett has been operating the 22-acre airport under lease since June 27, 1940.

706 Families Apply For Christmas Baskets; Fund Drive Under Way

Greater contributions than ever before will be needed for this year's "Tree of Lights" campaign by the Salvation Army, because of the large number of Christmas basket requests from needy families in the Quad-Cities, it was brought out at Saturday afternoon's dutch treat kick-off luncheon.

An indication that Quad-Cities already have recognized the circumstances, which include families involved in a five-month-old strike, was announced by the Salvation Army commander, Lt. Ronald Gorton, who said advance donations amounted to \$1300—enough to turn on 54 of the 6000 lights. "This is a far larger total than we've ever had on the opening day," he reported.

With 706 applications for baskets, and the process of screening yet to be undertaken, Lt. Gorton estimated this year's goal would have to be \$6000, up \$1000, to fulfill the community's needs.

Appeals For Support

The luncheon at the YMCA was attended by nearly 50 persons, who heard appeals by Harry Johnson, drive chairman, and Chris Passhoff, chairman of the Salvation Army board.

Organizations and individuals supporting the campaign attended the luncheon, during which Christmas carols were sung by the Granite City high school madrigal singers under the direction of Warren Simpkins.

The speaker, Randall Robertson, local lawyer and past chairman of the Tree of Light campaign, stressed the community-wide assistance provided by the Granite City high school madrigal singers under the direction of Warren Simpkins.

"The Miracle of Christmas is a balm to solve most of the problems not only here but throughout the world," Robertson said. "The Tree of Lights program carried out by the Salvation Army preserves the dignity of the individual and is truly a Miracle of Christmas for the needy."

Organizations Represented

Organizations represented at the luncheon included the American Legion, Eagles, Madison Literary Club, Venice Women's Club, the Madison Rebekahs, Madison schools, Boy Scouts, the Granite City Democratic and Republican clubs, local churches and businesses.

Specs guests were Mayor Partney of Granite City and Mayor Maers of Madison.

Hundreds Late for Work, School as Train Breaks Down, Blocks 5 Crossings

The east coast and the south-west may have their power failures, but the Quad-Cities developed problems with trains that stalled movement of rush hour traffic in Venice Thursday evening and in Granite City Friday morning.

Nearly 750 bus-riding youngsters were late for school Friday morning, and the Granite City Army Depot had about 200 employees arriving late for work as all five downtown crossings were blocked by a train with a broken axle. About a dozen American Steel Foundries office workers also were an hour late.

The only crossing open was at West Pontoon road.

The Friday morning breakdown occurred about 7:20 a.m., and all crossings were not cleared until 8:30 a.m.

Police issued a summons to the train conductor, E. E. Conway of Decatur, to appear in the magistrate court on a charge of blocking three street crossings.

No Emergency Calls
The officers said luckily there were no emergency calls requiring a cross-town dispatch of police or fire departments or ambulances.

The Niedringhaus avenue crossing was cleared briefly about 8 a.m., but only a few

cars slipped through, before the Norfolk & Western Railroad crew reblocked it trying to get the train moving.

A N.W. trainmaster told the Press-Record the train was southbound and was clearing a track for a passenger train when the airline broke on several cars.

It was necessary for the conductor to go from car to car along the 85-car train to release the air on each car so the train could be moved.

Numerous Queries
Telephone swamped with telephone calls as the crossings at Niedringhaus, 19th, 20th, 22nd

and 25th streets were blocked. The calls came from as far as Collinsville where an employer wanted to know what happened to several workers.

Motor vehicles were lined up nearly the full length of Niedringhaus avenue and for blocks along 20th, 22nd and 25th streets.

A line of vehicles on the west side of the tracks along 20th and Missouri avenue extended out along Route 3 to the A. O. Smith Corp. plant.

The tie-up changed the entire morning traffic pattern in the area as motorists tried different routes to get cross-town.

Intersections usually open during the morning hours were jammed with cars. In one line-up of blocked autos the occupants were spending their time playing cards.

In the jam-up were six school buses, including several that make double runs each morning. The 750 pupils who were late attend classes at the high school, Coolidge and Prather junior highs, and Mitchell and Logan grade schools.

Motor vehicles were left stranded at bus stops, but eventually most made their way to school. The number of absentees was not excessive.

The similar tie-up in Venice occurred about 4:30 p.m. Thursday when an N.W. freight engine applied emergency brakes to avoid striking a car at the Broadway crossing. The train couldn't move until the air pressure on the brakes slackened along the 85-car train.

The Broadway crossing was closed about 45 minutes.

Occurring at a peak traffic hour, motor vehicles were lined up along Broadway in Venice and on Madison avenue in Madison up to Third street. On the other side, it was backed up over McKinley Bridge to Salisbury avenue in St. Louis.

Following the program, the group went to Memorial Park across from St. Elizabeth Hospital, where A. P. Steinhauer, chairman of last year's campaign, turned on the first light for the Tree of Lights.

BARREN EASTBOUND LANE along Niedringhaus avenue was evident during the 1½-hour tieup of traffic due to air line break on a freight train at 7:20 a.m.

EIGHT-BLOCK LONG TRAIN blocked crossings at Niedringhaus avenue, 19th, 20th, 22nd and 25th streets Friday morning, virtually halting cross-town traffic.

State Park Master Plan Includes This Area

The Illinois Horseshoe Lake Area Commission, headed by Henry D. Karandjoff of Granite City, will study the newly announced master plan for large-scale development of outdoor recreation areas with a view toward taking "full advantage" of every available opportunity to fulfill the commission's objectives in this area, Karandjoff said today.

The plan, fostered by the Illinois Department of Business and Economic Development and made public in a meeting of federal, state and local government planning officials at Illinois Beach State Park, encompasses a vast, long-term plan of land

use for eventual development of parks, waterways, conservation districts and recreation areas in both rural and urban sections throughout the state.

Extensive purchase of recreational land for the next five years in or near urban areas where the need is greatest is the principal recommendation of the plan, with second priority given to expansion of boundaries of existing state and local recreational facilities, especially those in or near large cities.

As outlined in Friday's meeting, which was attended by Theodore Mikessell, executive director of the Southern Illinois Metropolitan Area Planning Commission, the plan suggests several major policy changes. Foremost among these is the purchase of land for the development of parks and recreation areas in urban territory, a practice left previously to local governments.

No Estimate on Cost
The plan does not specifically pinpoint land to be purchased nor does it estimate the amount to be spent for land purchases at this time.

The Horseshoe Lake development is mentioned specifically in the plan, and involves practically the same recommendations as made by the area commission in a report to the Illinois Legislature last June.

Expansion of the Lewis and Clark Memorial south of Wood River on a "limited basis" also is recommended in the plan. The area now covers about six acres. The plan suggests raising it to about 35 or 40.

Karandjoff said that the Horseshoe Lake Area Commission will study the new program in detail, so that the commission can take advantage of all potential federal and state grants for development of recreation areas. The entire development recommended by the Horseshoe Lake commission, including acquisition of more land for Cahokia Mounds State Park, involves about 7900 acres.

Other recommendations of the plan include expansion of Grand Marais State Park in East St. Louis, relocation of the Great River Road (Federal Aid Route 151) closer to the Mississippi river wherever possible; acquisition of scenic river bluff and sinkhole areas north and south of the Metropolitan area; expansion of city areas for high density recreation land use and conservation of wooded areas where possible.

The plan describes the Cahokia Mounds area as "one of the richest archeological areas in the state." The state plans to spend \$1.5 million to buy up to 600 acres next year in that area.

The land purchase and development program would be financed with federal, state and local funds, with federal funds coming from a number of different agencies whose duties involve conservation and park development.

Mortar Mixer, Shotgun Stolen During Weekend
A piece of equipment valued at \$1000 and a shotgun were among items stolen in six burglaries and thefts reported to authorities during the weekend.

A mobile mortar mixer valued at \$1000 was stolen last night from Paul Worthen, 37 Janday lane. The mixer was hitched on the rear of a truck that was parked at his home.

Donald M. Giger, 2557 Lincoln avenue, reported he was pulled into a rental trailer and turning at Lincoln avenue and Madison avenue, an orange dolly owned by the U. Hunt Co. fell off about 5 p.m. Thursday. He said a motorist stopped him a couple blocks away and told him, but upon returning the dolly was gone.

Theft of a new 12-gauge shotgun from the cab of his truck while parked at 201st street and Bryan avenue yesterday was reported to police by Fred Clark of 2 Jones Park.

A 1961 auto reported stolen from the Tri-City Motor Co. lot, 21st street and Madison avenue, at 12:15 p.m. Thursday, was found by sheriff's deputies late Thursday and towed away to a service station.

Diane Arthur, 2431 East 24th street, reported to police Saturday night that a white coin purse containing \$1 and valuable articles was stolen from her auto at 12:15 p.m. Thursday. She later located the purse, but the money was gone.

A charge of attempted theft was placed against Alfred White, 19, of St. Louis, by a Venice police officer who was attempting to steal a set of fender skirts off the 1960 auto of Evon Taylor, 15 Lee Wright Homestead. Taylor's car was parked at Klein street and Circle drive.

Venice Ordinance Creates Planning, Zone Commission

The Venice city council Friday night created a municipal planning commission which will be charged with the work of preparing a city plan and zoning ordinance.

The Venice ordinance creates a commission of nine members, with three to be appointed to appointments later, subject to council confirmation. Commission members will serve without pay, but will be authorized to employ a secretary or staff and obtain technical advice and services.

The ordinance authorizes the commission to elect officers and prepare a city plan for current and future development. All plans and recommendations will be subject to approval by the city council.

The ordinance is similar to that passed last Tuesday by the Madison city council. Both Madison and Venice made plans to set up their own plan commissions and adopt zoning ordinances after passage of a new Illinois Act providing that County Zoning boards are authorized to control planning and zoning in communities that do not have such systems of their own.

Grant Easement
An ordinance granting an easement over McKinley bridge property to the Metropolitan Sewer district of St. Louis was approved by the council. The easement was granted to permit tunneling at a depth of 80 feet for St. Louis sewer construction. Requests for other easements were referred to Hardesty & Hanover, engineers, for recommendations.

A proposal for a stepped-up program of fire inspection in Venice homes in an attempt to reduce fire hazards was made by Rinnie J. Vince, Third Ward Alderman. Vince said he thought such inspections would reveal the more obvious faults such as exposed wires, unprotected flues and defective switches. Inspectors have the right to order correction of such deficiencies. Vince pointed out, and such action might prevent loss or injury from fires during cold weather.

Mayor Lee agreed that such a program should be worked out but said that each case would have to be judged on its merits because "I don't think anyone is going to put out a lot of money for rewiring or remodeling in such cases." Alderman James Miller questioned the city's right to order residents to make improvements, but Vince presented a specific section of the city code giving the city such right and fixing penalties for failure of residents to abide by the orders.

Award Sewer Contract
The council awarded a contract to H. Sternberg Co. for construction of a sanitary sewer line in the first block of State street, starting at Market street, to serve business houses in the area. Sternberg was low bidder at \$2039. Two other bids were submitted: A. H. Seibold Co., \$2122, and General Contracting Co., \$2216. The new line will connect with an eight-inch Madison line in that vicinity.

Miller reported that the Illinois Power Co. has completed installation of a series of street lights in Venice alleys and asked that the city clerk's office be instructed to check its list of proposed light installation with that of the police traffic officer directing traffic at Fourth street and Broadway. Miller suggested a brighter spotlight that would enable motorists to see the officer better.

Granite City collected \$3506 in parking meter fees and \$622 in fines for meter violations during November, making up the largest parking meter income of any single month so far this year, according to a report by the office of Comptroller John Doeber.

The total collection of \$4128 for total amount of fees and fines received by the city through parking meter operations during the month increased to \$35,342 the 11 months of the year. A Christmas wonderland of imaginative decorations and packaging will transform the auditorium of Granite City high school this evening for the 18th annual Yuletide gift wrapping and decorating show and demonstration. No admission will be charged for the event which will begin promptly at 7:30 p.m.

Given under the auspices of the high school art department as a public service, the show usually attracts a capacity audience and is one of the most popular pre-holiday events in the Quad-Cities.

Eugene Alassi, art director, suggests those planning to attend arrive early to acquire good seats and the opportunity to inspect the hundreds of items made by art students.

During the gift wrapping demonstration, 140 packaging ideas will be shown, and instruction booklets on gift wrapping and decorating ideas will be distributed, along with 50 Christmas centerpieces made by the students, Alassi said.

DA Extends Time on Milk Order Briefs

The U. S. Department of Agriculture has extended until Dec. 18 the deadline for filing written arguments or briefs on the record of the hearing on a proposed new federal milk order for central Illinois, and proposed amendments to the present federal milk order for suburban St. Louis and adjoining Illinois areas.

A hearing on the proposal was held in Peoria Oct. 6-9 and in Springfield on Oct. 11-13. The USDA Consumer and Marketing Service said the extension of time from the original deadline of Nov. 30 was requested by a milk dealer who distributes milk in the proposed Central Illinois federal milk marketing area.

Written arguments or briefs must be filed by the Dec. 18 deadline, in four copies, with the Hearing Clerk, Room 112A, U.S. Department of Agriculture.

One of the permits was for two four-family brick veneer apartment buildings, each containing 12 rooms, issued to John Sobel for the 2300 block of Washington avenue with a value of \$59,000. Give Paper Mate and your gift problems are all wrapped up!

A haircut may well be an effective punishment for teenage delinquents.

New Magistrate Andreas Matosian discovered the method when he imposed one on a long-haired 15-year-old boy who supposedly was to work out a fine for 21 days.

According to court officials, the boy managed to evade any work and had sufficiently alienated his supervisor who wanted him out of sight.

As a result, Judge Matosian ordered the boy to sit in court all day. But after a short time, he felt the sight of the boy was repugnant to the court, and he took the lad to the barber shop. The boy objected, not wanting to lose his "crowning glory." A quarter-inch crew cut resulted. The long mane was gone.

The magistrate also told the boy that if he ever appeared in court again, he would be subjected to another haircut.

Further information on this subject is available from the Internal Revenue Service.

Venice Bombs Wesclin, 101-56; Madison Scores Comeback Win, 65-60; Kahoks Defeat GC, 68-56

Tri-Cities prep basket ball teams fared quite well, despite two wins and one loss in competition this past weekend.

Granite City's Warriors nearly upset highly-rated Collinsville before losing, 68-56. Madison scored another come-from-behind win over Roxana, 65-60; and Venice's Red Devils coasted home with a 101-56 win over Wesclin of Trenton.

Granite City's Warriors nearly pulled a major upset against the defending state champion Collinsville Kahoks, but lost 68-56.

Holding a 28-27 halftime lead, the Warriors were hurt by an unsteady free throw shooting and a lack of support on the boards. The Warriors missed eight free throws on one-and-one situations. If made, the game would have been tied or Granite City might have built up a slight lead in the third period.

Despite the loss of junior Terry Moore in the third period due to five fouls, Granite City broke

Vergil Fletcher's strong press and put in a press of their own. As a result, Coach Ralph Sackett's crew gained the ball 32 times on Kahok mistakes, while giving it up 20 times themselves.

In the game that was laden with fouls, 21 against Collinsville and 22 against the Warriors, Granite City shot 21 for 34 with the Kahoks more accurate with 22 for 31.

Kahoks Don Birger and Ronald Burton were high point men for the evening with 16 points each. Granite City's Larry Ripka was high for the Warriors with 15 points.

Venice poured all of its eggs into one basket and beat Wesclin, 101-56. The Red Devils were never headed after taking a 25-14 first quarter lead. Richard Essington hit from the outside for 20 points when Wesclin bottled up the middle and Percy Dillon. Dillon, although often double teamed, scored 19 points for the evening, and sophomore Johnny

Gardner poured in 20 points. Primary strategy of the Red Devils, the full court press, was abandoned before the first-half time ended, when Venice had built a lead of 23 points.

"We shot 62% from the field, and did a good job all around. Why, even our reserves did great," commented Bill Ollendorf, Venice coach.

Trojans Overcome Roxana. Meanwhile, the Madison Trojans came from behind once again to down Roxana's Shells, 65-60 in Madison.

Down 16 points at half time, the Trojans used a "more enthusiastic zone press and the fast break" to win the game, according to coach Earl McClannahan. Paul Lusk broke the game open hitting shots from all over the court for 31 points and high scorer honors of the evening. Dale Turner hit for 16 of his 21 points in the second half. The win gives Madison a perfect 2-0 mark.

HOW TO MAKE A SMALL ROOM LOOK LARGER

When someone asks me "What are the main rules in decorating a home?", I give them this answer:

The simple ingredients are imagination, courage and good taste.

In decorating your home, remember, you are expressing your own personality. And, you should certainly consider your own basic likes and dislikes. You can do a beautiful job in many different ways and styles.

One noticeable trend today is to mix periods, woods and finishes, so it is not difficult to assemble the things you like.

I always say that money will never take the place of good taste, and all of us have seen homes furnished with a shoestring that could win a prize in decorating shows.

So regardless of your budget, you can furnish your home attractively with the exact pieces you need and like.

And, don't be afraid to express your imagination!

When you do need assistance in selecting any pieces of furniture, we can help you pick the things you want at the price you can afford.

So, remember, when shopping for your decorating and sales staff here at Friedman Bros. Furniture Co., Netherland and Delmar Aves. in Granite City, is always ready to serve you. We are open Monday, Thursday and Friday night until 8:30 p.m., other nights until 8:00 p.m.

\$20 Pay Hike for County Employees

Madison county employees will receive a \$20 monthly pay increase effective Jan. 1, according to an agreement reached by Local 799 of the American Federation of State, County and Municipal Employees and the finance committee of the county board of supervisors.

The union sought a \$40 pay hike, with a supplemental appropriation to equalize salaries of all courthouse employees. There are differences in salary between various offices in the courthouse as much as \$60 a month, according to Miss Evelyn Bowles, union president.

The finance committee took no action on the equalization request. But it had proposed giving some employees a \$25 increase and others a \$20 a month raise. The union agreement was conditional, that the \$20 increase apply uniformly to all employees, union and non-union.

The union represents 150 of 325 county employees who work at the courthouse, county nursing home and tuberculosis sanitarium.

Miss Bowles said the union, county officers and the finance committee will work next year to establish a system of job classification and salaries to reconcile present inequities. She said employees in various county offices who perform the same duties and functions do not now receive equal compensation.

Most of the work on the 1966 county budget, to be adopted at the Dec. 22 meeting of the board of supervisors, has been completed. It includes a \$15,000 increase for county board operations. Board members this year are over spending their \$2,000 budget.

No Changes Seen In County Tavern Operating Hours

County liquor laws will be enforced and there will be no extension of tavern closing hours, Harold Landolt, county liquor commissioner, made it clear at a meeting Thursday in Edwardsville.

The commission met to review a proposed county liquor control ordinance which has been laid over by the county board of supervisors for the last two meetings because of alleged defects.

Landolt also told representatives of taverns in unincorporated areas of the county and the Madison County Baptist Association that no action would be taken to shorten the hours of tavern operation.

Several provisions in the proposed ordinance, long sought by Sheriff Barney Fraundorf, have drawn objections from tavern operators who were represented by attorney G. Edmund Cook of Madison.

Wants Workable Law

He supported a "workable" county ordinance but opposed such provisions as fingerprinting of tavern operators and a prohibition against known police characters and other undesirable persons on grounds that it was impossible to know who was an undesirable character.

Cook said the tavern group favored stricter enforcement on the sale of liquor to minors and thought the penalty should be levied against the minors and not their parents rather than the proprietors.

Sheriff Fraundorf called for uniform closing hours for municipalities and unincorporated areas in the county to make it easier to enforce. But Landolt pointed out that "if you want to be uniform with the city of Madison, they'd be open until 4 a.m."

Four Ministers Attend

Four ministers represented the Baptist association, including Rev. William A. Richardson of Granite City, superintendent of missions, and Rev. Clifford Mosler, pastor of the Grace Baptist church here.

Rev. Richard Dillender, pastor of the Maryville Baptist Church, told the group he did not believe taverns to be a legitimate business and said liquor is one of the greatest problems of society. He said it is an immoral business when it "robs our young

Madison Lions to Honor Young Athletes

Tentative plans were made by the Madison Lions club Thursday evening to honor members of two Khoury league championship teams at a dinner meeting in January. No definite date was announced for the affair, which is being arranged by a committee headed by Judge Austin Lewis.

Twenty-six members were present Thursday for the club's weekly dinner meeting held at the Sportsman's Club, Tenth and Iowa streets, Madison. Walter Gavlick, president, was in charge of the brief business session.

Auto Struck in Rear

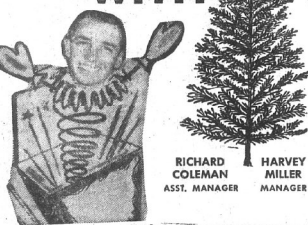

The rear of a car driven by Dutsy L. Wright, 2801 Benson street, who made a stop sign at Niedringhaus avenue and State street, was struck by another driven by Lawrence R. Butts, 2720½ Iowa street, at 6:50 p.m. Thursday.

people of our morals" and wanted tavern hours shortened.

Landolt said "We are not here to close taverns, just control them."

He said that any suggestions for proposed changes should be submitted in writing within a week to give the commission time to make recommendations before the Dec. 22 meeting of the county board.

Park District is Expanding Pre-School Children Program

Granite City park district will add a fifth class to the second session of its 1965-1966 pre-school program which starts Jan. 10 at Lincoln Place community center, 822 Niedringhaus avenue. Parents may register new pupils starting today, by calling the park office at TR 7-0689.

In order to accommodate additional youngsters, the new class will be held each Wednesday from 9:30 to 11:30 a.m. and on Fridays from 1 to 3 p.m. Children four and five years old are eligible to attend. A total of 30 pupils are enrolled in four other classes being conducted on a twice-weekly basis. The average daily attendance is 24 students.

No charge is made for those participating in the pre-school program which is limited to residents of the Granite City park district. However, Harold Brown, park superintendent, said that children may bring ten cents per

day to cover the cost of refreshments.

The program is under the direction of two former primary grade school teachers, Mrs. Ruby Mayberry, who previously taught in the Granite City school system, and Mrs. Carol Chappell, who taught in a Nebraska school district.

Four established classes are held on Mondays and Thursdays from 9:30 to 11:30 a.m., Mondays and Wednesdays from 1 to 3 p.m.; Tuesdays and Fridays from 9:30 to 11:30 a.m.; and Tuesdays and Thursdays from 1 to 3 p.m. Pupils already enrolled in the program are not required to register again, Supt. Brown said.

Wiretapping Law Is Explained to GC Optimist Club

The present legal status of wiretapping and proposed control legislation under consideration was outlined by Leon Scroggins of Granite City, an assistant state's attorney, who addressed the Granite City Optimist Club Thursday in the YMCA.

Scroggins, who until this month was first assistant U. S. state's attorney in Springfield, re-opened his law office at 1930 Edison avenue, Nov. 15. Previously he was in private practice here from 1959 until 1961.

One aspect of the present Illinois law regarding use of listening devices requires only the consent of one party. Scroggins said. Under proposed legislation, law enforcement officers will be required to obtain a court order to use a listening device, similar to the search warrant statute. In his opinion, he added, the new law offers no radical change from the present legislative act.

The attorney displayed a simple wiretapping device, selling for less than \$1, which he said can be attached to a dictaphone and telephone to record conversations.

Example of Use

A similar listening device was used in a successful prosecution case as a U. S. attorney, which ended with the conviction of Richard Lauchli Jr., 38, of Collinsville, who is facing a 2½-year prison sentence on a gun-running charge.

In the Lauchli trial, or any other case, the lawyer said, evidence gathered through wiretapping is inadmissible in court. However, he added, information received in this manner was helpful in preparing the prosecution's charges. Lauchli, who operates a machine shop near Collinsville, remains free under a \$20,000 bond and plans to appeal the sentence.

During the business meeting, conducted by Edward L. Stone, club president, a report was made on the Optimist Christmas tree sales lot, which opened Friday in the former location at 24th street and Madison avenue. Starting today, Stone said, the lot will be in operation from noon until 10 p.m. each weekday.

Twenty-five members attended the luncheon. Next Thursday a program of seasonal music will be presented by a Granite City high school choral group, under the direction of Warren Simpkins, vocal music instructor.

Tavern Windows Shot

Sammy Nighoesian, operator of Sammy's tavern, 921 Niedringhaus avenue, reported that pellets were shot through three front windows of the tavern, probably at 12:35 a.m. Friday when he heard a noise sounding like a shot. One of the pellets went through a rear door window.

THE PASTOR SPEAKS

REV. W. J. RICHARDSON
Madison County Baptist
Superintendent of Missions

Whenever men lose their consciousness of a Holy God, they also lose their desire to do anything to determine the sinfulness of sin.

The admonition to the children of God as set forth in 1 Peter 5:8, "Be sober, be vigilant because your adversary, the devil, as a roaring lion, walketh about seeking whom he may devour." Added to this verse is James 4:7, "Submit yourselves therefore to God. Resist the devil, and he will flee from you."

Considering that, today, men do not believe there is a devil, they have no consciousness of the Holy God—they have really no conscience toward sin. Hence they do not feel the need to get drunk, to kill, steal, commit adultery, lie and covet.

However, their unbelief does not nullify the truth. There is a devil.

Peter warns the child of God against this devil and his wiles. Be sober; be vigilant; or he devoured.

Be Sober

In essence he is saying: The business of the child of God is serious. Take it seriously. Don't be fooled. Keep a clear mind about this matter. Listen to what the Lord has to say, and not to the voice of the world.

Being sober also involves the matter of liquor. The devil has got the world believing that it is quite all right to seek wisdom in alcohol, be a moderate drinker, etc., because the heads of the nation, high society, rich or poor, are distinguished by their cocktails, etc. But the truth is that God says, "Be Sober." God Almighty has issued warnings against this far more serious sin than before your mind and brain. You need a clear brain to be alert when coping with the devil. The Christian's life is a battle against sin. The Lord wants his children to be sober and serious-minded as they engage in watchfulness against the wiles and snares of the treacherous enemy of their souls.

Life is a battle: The Christian life is a battle against sin.

Be Vigilant

He also urges that his children be vigilant.

Be vigilant because the enemy is subtle, crafty and deceptive; he will slip a marijuana into your pack, or spike your coke, or use some other ruse to bring you into a compromise. He will destroy everything in you that is pure and holy if you are not vigilant.

In life there are many pitfalls, many booby traps, many innocent but ignorant helpers to encourage you to laugh at the devil and have a good time."

But, my friends, be sober, be vigilant. These are the sure words of the Lord.

Or Be Deceived

Be sober, be vigilant, or be devoured—for your adversary is as a roaring lion, walking about on the earth seeking his prey.

The self-proclaimed strong-minded trouble does not laugh at this warning. The pleasure-mad group gives it little or no consideration; the wary in any indulgent group today says, "This is life."

"Eat, drink and be merry, for tomorrow you may die." They have no ears for the saying, "Abstain from all appearances of evil."

An illustration from the life of Samson reveals the results of such a life. He played hide and seek with the truth and wound up a slave of the adversary and blind in both eyes.

David found himself in great trouble and by bypassing this truth and coveting the possession of another man. Be sober, be vigilant, or he will be destroyed.

Jesus Christ resisted the power of the devil with Truth, the Word of God. He answered the deceiver and by his suggestion each word, "It is Written."

Peter was rebuked by Jesus Christ on an occasion because he had been so vulnerable to the devil. Jesus said to him, "Get thee behind me, Satan." Victory over the devil is found only in submission to God. The Father, through his only begotten Son, Jesus Christ, has provided for man a way to the Father, but by the Son Jesus said, "I am the way, the truth and the life: no man cometh unto the Father, but by Me." John 14:6.

So, my friends, be sober, be vigilant or be devoured. Submit yourselves to God, resist the devil and he will flee from you.

TODAY'S INVESTOR

By THOMAS E. O'HARA

Q. I think a stock custodian account for my children would be a good way to help a child get a head start on life. However, I want to set it up so that I maintain control of the buying and selling of the stocks. How can this be done?

A. Yours is a very good idea. Not only will your children have a college fund, but they will just naturally be drawn into the interest in the stock market, since they will be personally involved with money that will become their own.

Here is how a custodian's account works: you buy stocks in the name of the custodian for the minor. The custodian is in sole charge of the stocks and dividends from that point on until the minor becomes of legal age, but he is limited as to what he can spend the money on.

Dividends must be spent in behalf of the children. They cannot be spent on food or clothing, or on other things that parents might reasonably be expected to supply. They can be spent on special purchases that are going to benefit the child chiefly. And, of course, can be spent on higher education.

Tax Advantage

One of the reasons for giving stock to children is to give assets periodically within the tax-free gift limits and get the funds out of your estate so that estate taxes will not have to be paid on the time of your demise.

What you want can be done, BUT you lose one big advantage in doing it. If you act yourself as custodian, you will certainly keep control of the stocks.

But at the same time, if you die, the custodial account reverts up.

Immediate Compromise Essential In Long Dispute At Starch Plant

"Peace on earth... good will toward men."

The Union Starch & Refining Co.-O'Leary, Chemical & Atomic Workers dispute is now in its sixth month. Despite the fact that both parties would benefit from a settlement. No plant that usually employs 420 men can operate to the best advantage of itself and its customers without the employees. By the same token, the workmen and their families are adversely affected; since the strike began July 4 they have lost \$1,460,000—an average of \$3475 each.

During the many meetings which have been held, surely all pertinent points have been discussed. An agreement will be reached sometime, and the negotiations that have taken place provide the basis for it, if only this is recognized by those involved.

It has been more than two weeks now since the union and management have met across the bargaining table. This is too long.

What could be more appropriate in this month commemorating the Birth of Christ—than that "good will toward men" become a reality in the hearts and minds of the negotiators?

Amend The Parking Meter Law

Deficiencies in the ordinance governing Granite City parking meters have resulted in a situation in which many citizens have accumulated large numbers of unpaid meter fines. Most are eventually paid, but the city has waited long periods—in some cases, ten years—before getting payment.

The law says \$1 fine with the first 24 hours and a \$2 fine for payment 24 to 40 hours after an overtime parking violation. But it fails to list the penalty after 40 hours, gives no other deadline and does not fix collection in a specific official. As a result, collection efforts have been on a "hit or miss" basis.

The function of meters is to make parking spaces available at frequent intervals during each day, but wording of the present ordinance apparently has failed to place enough emphasis on this objective. It should be amended, with the city attorney or some other official designated to follow through on every violation within a short time.

Americans are getting stronger. Years ago, it took two people to carry \$10 worth of groceries.

HAZARDS LURK OUTDOORS

All who come in contact with wildlife should remember that a variety of diseases are transmissible to man from wild creatures. Dr. Fred A. Feder, director of the Illinois Department of Public Health, cautioned Illinois residents.

Persons who handle sick animals, are bitten by them or handle the carcasses may become infected. A sick or dead bird may have salmonellosis or ornithosis, which produces a serious, pneumonia-like illness in man. If the normally man-slaying fox, skunk or other wild animal seems tame and friendly, it may have rabies and should be avoided. The great reservoir of rabies in wildlife is found in skunks and even a baby skunk could develop rabies after being taken from its natural environment.

Hunting is great sport but as in any sport, there are hazards involved, and awareness of them helps in avoiding trouble," Dr. Feder added.

ARTS ASSISTANCE PROGRAM

The Illinois Arts Council has voted to establish a technical assistance program to make services of experts available to artistic and cultural organizations throughout the state.

"This is an area in which many local artistic and cultural organizations are in need of assistance," George W. Quinn, Arts Council chairman, said. "This assistance feasibly could take the form of advice on stage lighting or a baby assistant for a theater group, a season ticket campaign for a community orchestra, or the mounting of an art exhibit in a museum or library."

Currently receiving financial assistance from the council for downstate appearances are the Chicago Symphony Orchestra, Chicago Little Symphony, Walden String Quartet and the Illinois Ballet Company.

Area Group Will View Experiment In Rapid Transit

C. E. Townsend, editor-publisher of the Press-Record and chairman of the Bi-State Development Agency, will join a group of rapid transit experts Tuesday in Pittsburgh, Pa., for a demonstration ride and tour of a \$5 million experimental rapid rail system.

Built under the sponsorship of the Port Authority of Allegheny County, with financial assistance from the federal and state governments and Westinghouse Electric Corp., the project is nearly two miles long.

The roadway is both at grade and overhead, and is traveled by lightweight, automated vehicles operated singly or in trains up to 10 cars. The vehicles, built by St. Louis Car Co., a division of General Steel Industries, are 30.5 feet long and 102 inches wide, with seating capacity of 28 or 70 standees. Riding is odorless, noiseless, comfortable and air-conditioned.

The vehicle resembles a bus and runs on four pairs of rubber tires that ride on two 22-inch wide ribbons of concrete. An "I" beam is mounted between the ends and used by "guide wheels" to steer each axle and to firmly position the vehicle on the roadway.

Operation of the trains is computerized and completely automatic. Absolute safety is assured, the designers assert, and there is two-way communication between passengers and the central computer control station.

Bi-State Agency recently awarded a contract for a rapid transit study of the metropolitan St. Louis area, including Illinois, subject to raising approximately \$150,000 or one-third of the estimated cost. The balance will be sought in the form of a federal grant.

The Port Authority of Allegheny County is similar in functions to the Bi-State Agency. Another similarity is that it has just acquired and unified into a single transit system 30 independent bus lines, plus two commuter railroads. A major difference is that it has taxing powers; Bi-State does not.

Red Cross Gives Tips For Overseas Gifts

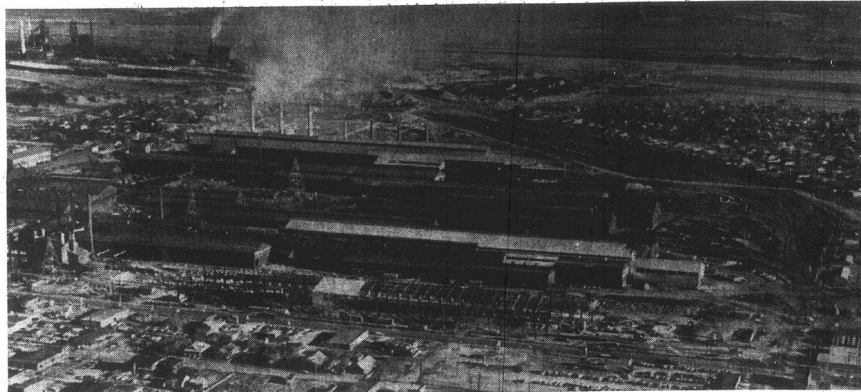

Additional items which make welcomed gifts for servicemen overseas were reported today by Mrs. Ruby Overbeck, executive director of the Tri-City Red Cross Chapter, who said the list was compiled from articles requested by armed forces personnel serving abroad, including Vietnam and Korea.

The list includes commercial games, such as Monopoly and Scrabble; cards, playing cards and pinhole decks; paint-by-number kits; stationary and self-sealing envelopes; and individual sewing kits.

In an earlier release, the Red Cross official had listed the following gifts: paperback books, pocket-size sets of checkers, chess or cribbage, jigsaw puzzles, red-pop popcorn (able to be popped in container); toilet articles, razor blades, combs, etc.; harmonicas or ukules, pre-sweetened powdered drinks; cookies and candies, records, photographs and small-size cameras.

A relative of a local serviceman informed Mrs. Overbeck last week that she had successfully sent a home-made German chocolate cake to Viet Nam, which arrived in excellent condition.

The woman said she first wrapped the cake in tin foil and packed it in a three-pound coffee can with a plastic lid. The cake was greatly appreciated, she added.

Former Resident Is Honored For Heroism

For heroism at the voluntary risk of his life, Tech Sgt. William R. Walls, a former Granite City resident and brother of Kelley W. Walls, 2825 Saratoga avenue, recently received the accompanying certificate to the U. S. Air Force Airman's Medal at Langley AFB, Va.

Sgt. Walls was cited for his actions in saving the life of a downing victim at Myrtle Beach, S. C., in late August. The incident required the 11-year Air Force veteran to swim more than 400 yards offshore through rough waters.

A photomapping technician with the Tactical Air Command, which provides combat reconnaissance, aerial fire support and assault flights for U. S. Army forces, Sgt. Walls was honored in presentation ceremonies, conducted by Col. George K. Sykes, TAC deputy for intelligence.

He and his family lived here briefly about five years ago, while Sgt. Walls was attached for temporary duty at the Aeronautical Chart and Information Center, St. Louis. He returned course of instruction.

A son of Mrs. Cora W. Dean of East St. Louis, Sgt. Walls is married to the former Miss Margaret Smith of Sumter, S. C.

Traffic Accidents in Area Drop Sharply

The number of traffic accidents reported in October. This year's November accident record also was a decrease sharply in the Quad-City area below that of the same month a year ago. In November, 1964, the area had 172 accidents with 96 injury cases and one fatality.

Totals for the eleven months of the year, however, vary only slightly from those for the same period of last year. November's traffic accident statistics increased to 2023 the total number of accidents reported in the area thus far this year, with 100 persons injured and 22 killed.

Late Mailing Will Delay Xmas Delivery--Overbeck

The Post Office Department peace treaty had been signed has come a long way since 1815 ending the War of 1812. The treaty was signed in January but the message wasn't delivered until March.

"While the late delivery of Christmas mail might not be so tragic," the Granite City postmaster said, "much of the joy of Christmas would be lost."

Overbeck said that about seven billion pieces of mail will be delivered nationally during the peak Christmas season. To make sure that it gets to its proper destination in time, everyone should plan to mail as far in advance as possible and should not hold back all cards and gifts until the last minute.

"In other words, mail early and often," Overbeck pointed out.

Bomb Scare Hinders Depot Man's Mission

An equipment specialist at the Granite City Army Depot had his special mission briefly interrupted Friday by 112 hysterical passengers aboard a TWA jet airliner leaving Los Angeles for Chicago.

Edward F. Sanders, 49, of Belleville, despite credentials indicating his status and mission, was held at the Los Angeles airport, following the return of the jet after dumping 50,000 pounds of fuel into the ocean. He had been returning from Saigon where he had been detailed and finally arrived home Saturday.

Sanders said that the passengers became hysterical after a man on the plane accused him of carrying a bomb. The pilot of the jet then dumped the fuel and landed again in Los Angeles. He was questioned by local police and the FBI before being released.
